**NOTE:**

There are many unmarked graves in this cemetery. This is a very old cemetery. Also in the 1950's the road came through and took some of the cemetery leaving some of the graves and moving some in to the back part of the cemetery and burying tomb stones with the remains.

**Scioto M. Herndon did a survey of the cemetery in 1936 for the WPA. Since his survey some of the stones that he listed are now missing. It also seems that someone has put back stones that were not there when he did his survey. We can only guess the age of these stones but they do not appear to be anything that was recently manufactured. We can only wonder why someone would steal a gravestone.**

**As with all surveys, we encourage the reader to check the stones themselves and come to a conclusion as to what the stone reads.**

**Below are stones that appeared in Herndon's survey that are either unreadable now or have been removed from the graveyard since his survey.**
